“George Bernard Shaw once wrote, “Imagination is the beginning of creation. You imagine what you desire; you will what you imagine; and at last you create what you will.”

There is no shortage in this world of people able to imagine a better future. But in Rotary, we do not just imagine that future -- we will it, and we work to create it. This we do through our two great strengths: our Rotary clubs and our Rotary Foundation.

The best Rotary programs and projects focus on building for the future – and making lives better for generations.

Two decades ago, we Rotarians made a promise: to make life better for the entire world, forever, by eliminating polio. It has always been an ambitious goal, but it has always been a realistic one. And now, thanks to our Rotary Foundation, we are closer than ever to reaching it.”

John Kenny, RI President
