Joseph Meehan was sponsored by our Club, attended the Honeywell Engineering Summer School which brings together 100 Year 11 students who are interested in pursuing engineering as a career. Throughout the week-long program, students are introduced to five universities. The students are taken behind the scenes of some major engineering companies and projects to see engineers at work. HESS is a great experience full of practical engineering activities, a careers evening, and other evening social programs. HESS is an initiative supported by Engineers Australia, Honeywell, NSW Engineering Universities and participating Rotary Districts.

President Michael with Jeni Wilkins, Bruno Biti, Graham Booth, Brian Burke and Brian Wilkins

Brian Burke (secretary of Recreational Vehicle Fellowship of Rotarians) told us about his stay in our area, with Bruno Biti and Graham Booth. They belong to the RVFR, a group of like minded Rotarians who enjoy participating in recreational pursuits including Caravanning and 4WD driving.
