They were included in a group of about 90 students from Bega to Nowra. The Outward Bound experience involved camping, setting up a bivouac site each night and taking turns in cooking meal, planning and taking parts in analysing each day's activities through a fire side discussion called 'brick bats and bouquets'. The students left home not knowing what was involved in this experience.

The members were extremely pleased to hear about the success of this project and the impact that it made on the young people in the lives of students in this district. As one student said; 'Together everyone achieves more'.
