This video demonstration is presented by the doctors who invented the procedure at the University of Arizona Sarver Heart Center.

Please watch this short video which illustrates the best demonstration and gives the simplest explanation of exactly what to do if someone near you collapses and is presumably having a heart attack. You could very well save the life of a friend or loved one.

Change lives

By RIP R Burton, [Rotary Voices](#)

I have to admit, during my first year as a Rotarian, I almost missed the magic of Rotary. I didn't always care for the food and programs at the weekly club meetings, and I thought I had better ways to spend my time. But then my club president asked me to chair the Rotary Foundation committee. Rotary started changing for me after that. I found that the more engaged I became in Rotary and the work of The Rotary Foundation, the more I saw the magic of Rotary and how it changed lives.
