#### Description

Strengthen your club by diversifying its membership. Having members with various backgrounds and viewpoints gives your club a broader understanding of the community, its problems, and possible solutions. Including members who have different thoughts, perspectives, and cultures will increase your club's capacity to serve and its impact.

Taking this course will help you understand the value of diversity, assess how well your club represents your community, and take steps to diversify your club, using Rotary's classification and diversity assessments.

\*A self-guided module required for course completion. It takes approximately 15-20 minutes to review.
