Michael informed members that the next team is leaving in early January 2019 and returning towards the end of January 2019.

Michael stated of the frustration of trying to enter Ethiopia, in the past the team volunteering to conduct this program has had issues with gaining visas to enter Ethiopia and having to put the program on hold as visas hadn't been approved by the authorities

In Ethiopia, once the visas have been approved the team heads to rural areas of Ethiopia to farming areas as this is one of the areas highlighted for the program.

Local surgeons work with team organised by the Eyes for Africa program. The next team will be working with a local surgeon whose training has been funded by the Eyes for Africa program.

Thank You Yvonne Young for the meeting's report.

"Change is hard. And the longer we've been going one way, the more friends we have with us, the harder it is to be the one who turns around and does it differently. But change — not change for its own sake, but careful, considered, goal-directed change — is essential for any organization that wants to evolve, stay relevant, and move forward in the right direction." 2018-19 RI President Barry Rassin, Dec 2018.

"This is a changing world; we must be prepared to change with it. The story of Rotary will have to be written again and again." Paul Harris, RI founder, This Rotarian Age, circa 1935

Club Toast: "Good food, good fellowship and the privilege to serve."
