***NEW ATTENDANVE OFFICER: Apologies and Guests to ED ZONNEVELDT on 0407 958 516, by no later than 12 noon on Tuesday.***

**2017-18 - RI President Ian Riseley, RC of Sandringham, Victoria.**

*From RI Website.*

Riseley stresses that while fun is a vital element of the organisation, Rotary must make a difference in the world. At the International Assembly in January, he noted that environmental degradation threatens us all and asked every Rotary club to plant a tree for each member as a gesture with both practical impact and symbolic power.

Rotary must also do more to welcome younger people, who he says face a number of competing demands. They are interested in service and eager to do good, he stresses, but they need options. “We need to offer them an involvement that doesn’t waste their time,” he says.

Riseley also worries that Rotary needs to do a better job of communicating with people outside the organization. “We’ve grown up talking to ourselves, and there was an ethos for years that we didn’t seek aggrandizement,” he notes. “We haven’t made enough effort in marketing ourselves to the outside world. One of the things I am absolutely petrified of is that when polio is gone, Rotary will not get the recognition that we warrant.”

Ever the accountant, Riseley thinks one way to demonstrate Rotary’s impact is to quantify it. “What Rotary doesn’t do is calculate the value of its output. We’ve got 35,000 clubs around the world and they all do good things.” He envisions asking every club to report how much money it spends or donates and how many volunteer hours it puts in so that Rotary can calculate the output: “I believe that not just the rest of the world, but Rotarians themselves, will be astonished at the value of what we do.”
