Since the first trip Craig has gone six times, the last time felt different as the Timor people were ready to take it over the eye surgery. Craig is now with an organisation called OneSight still working with this organisation in Peru Colcon Valley. Craig explained how the conditions were different because of the altitude and how local people would line up for hours to see the eye doctor – Optometrist or ophthalmologist, Craig stated that it was about giving people sight. OneSight is to be a self-sufficient program and for glasses only no surgery.

A study showed that over 1 billion people need glasses though lack the means to purchase or attend a clinic.
